Key vocabulary	
atlas	A book of maps
border	A border is a real or artificial line that separates geographic areas.
capital city	The capital city, often called the capital, is the one from where the government of a country functions.
climate	Climate is a pattern of weather that occurs over a long time such as years and centuries. For example, the climate in an area could be dry in that it rarely rains there.
coastline	A line that forms the boundary between the land and the ocean or a lake.
Europe	One of the continents of the world.
globe	A globe is a picture of a planet drawn on a sphere.
human geography	Human geography focuses on where people live, what they do, and how they use the land.
independence	The quality or state of not being under the control of, reliant on, or connected with someone or something else.
map	A map is a drawing of all or part of Earth's surface.
mountain	A landform that rises high above its surroundings.
physical geography	Physical geographers observe, measure, and describe Earth's surface.
population	The whole number of people living in a country, city, or area.
regions	A region is a large area of land that is different from other areas of land.
river	A large natural stream of water that flows over land.
tourism	The commercial organisation of holidays and visits to places of interest.
tourist	A person travelling or visiting a place for pleasure.
weather	The daily state of the atmosphere, or air, in any given place.
