

Year 4

GarageBand

GarageBand is an app that can be used to record and produce music. The tracks produced can be saved and edited. Tracks can also be sent to other people.

Live instruments can be recorded and/or synthesised sounds that can be used. There is the option of using synthesised instruments in a way that imitates the real instrument. For example, guitar strings can be strummed or plucked.

Skills developed in this topic

- Playing melodic/rhythmic parts
 - Recording
 - Copying
 - Looping
- Adding effects and editing sounds
- Using instrument-specific effects

Vocabulary

Tempo - the speed of the music

Pitch - whether notes are high or low

Rhythm - a pattern of beats

Dynamics - the volume of the music

Timbre - Type of instrument or sound

Song - a track that is being produced

Loop - a section of the track that repeats
