

# Year 3: Online Safety

## Key Questions:

**Who do I tell if I see anything online that makes me upset or scared?**

When you are at school, you should tell the teacher or another adult. At home, you should tell your parent or guardian or another adult that you trust.

**What is a password and why should I keep it safe?**

A password is a secret word or phrase that allows a user to access a website. Passwords are like toothbrushes in that they should not be shared with anyone else.

**Is everything I read on the internet true?**

Just because something is on the Internet doesn't mean that it is true. Some people create spoof websites that pretend to be something else such as a bank website or to provide misleading information.

**How do I know if I am old enough to play a computer game?**

Computer games, like films, are often not suitable for children. PEGI ratings will show how old a person must be to play a game.

## Previous Learning

- Know how to refine searches using the search tool.
- Use digital technology to share work on Purple Mash to communicate and connect with others locally.
- Have some knowledge and understanding about sharing more globally on the internet.
- Introduce Email as a communication tool using 2Respond simulations.
- Understand how we should talk to others in an online situation.
- Open and send simple online communications in the form of email.
- Understand that information put online leaves a digital footprint or trail.
- Identify the steps that can be taken to keep personal data and hardware secure.

## Age Restrictions for Social Media Platforms

action for children

# Year 3: Online Safety

## Key Vocabulary

Online safety	Refers to staying safe when having a presence online.
Password	A secret word, phrase or combination of letters, numbers and symbols that must be used to gain admission to a site or application such as a website.
Internet	A global computer network providing a variety of information and communication facilities, consisting of interconnected networks and computers.
Blog	A regularly updated website or web page, typically one run by an individual or small group, that is written in an informal or conversational style.
Concept map	A diagram that shows how different objects or ideas are related and connected.
Username	An identification used by a person with access to a computer, network, or online service.
Website	A set of related web pages located under a single name.

## Key Vocabulary

PEGI Rating	A rating that shows what age a game is suitable for.
Webpage	A page online that makes up one screen of a website.
Spoof website	A website that uses dishonest designs to trick users into thinking that it represents the truth.

### Stay Safe Online

Remember the 5 SMART rules when using the internet and mobile phones.

- S SAFE:** Keep safe by being careful not to give out personal information when you're chatting or posting online. Personal information includes your email address, phone number and password.
- M MEET:** Meeting someone you have only been in touch with online can be dangerous. Only do so with your parents' or carers' permission and even then only when they can be present.
- A ACCEPTING:** Accepting emails, IM messages, or opening files, pictures or texts from people you don't know or trust can lead to problems – they may contain viruses or nasty messages!
- R RELIABLE:** Someone online might lie about who they are, and information on the internet may not be true. Always check information with other websites, books or someone who knows.
- T TELL:** Tell your parent, carer or a trusted adult if someone or something makes you feel uncomfortable or worried, or if you or someone you know is being bullied online.
